

LOGOUPDATE
BECAUSE INNOVATION IS ALWAYS AHEAD OF ITS TIME

We are very proud to present the
ENGINEERING FOR THE FUTURE Class of 2021

The ENG4F (Engineering for the Future) is a Global Internship Program, part of Logoplaste's commitment to help talented young graduates have access to state of the art production processes, fully automated lines, optimized efficiency at all levels and innovation as part of the company's culture, DNA and daily routines.

This year we welcome 3 interns:

- Andrew Lamberjack - USA
- Damian Hasterok - Poland
- Thomas Ward - USA

Today, we meet Damian, who will be working alognside our Polish Plants:

"My objective is to learn how to manage an innovative business and compete in the rapidly expanding, and ever changing, market. I know this journey will kick-off my career and I hope to contribute to the company's success with creative, responsible and effective work."
